C3 SUMMIT-DAVOS OF HEALTHCARE™ On Tech-Driven Healthcare Evolution & Breakthroughs:

The 13th Annual 2024 NYC C3 SUMMIT DAVOS OF HEALTHCARE™ will assemble business leaders, policy makers, educators and healthcare professionals from the United States and 12 of the 22 countries in the Middle East and MENA. The Summit's objective is to bolster and promote US and Arab world initiatives that are focused on the most up-to-date commercial and healthcare topics including infrastructure, the shift from communicable diseases, the future of primary healthcare, AI and cooperative assistance for knowledge transfer.

US and Arab relations rooted in commerce and enterprise are historic and grounded in tradition and mutual interest. These unique bilateral relations have influenced and shaped strategic healthcare partnerships, strengthened alliances, supported B2B and public-private partnerships for the last 13 years since the C3 Summit was inaugurated in 2012 by President Bill Clinton. Other notable keynote speakers have included Secretary of State Dr. Henry Kissinger, General Wesley Clark, and Ambassador Terry Branstad, former Ambassador of the United States to China, who inaugurated the first C3 China Summit in Beijing in 2019.
